SUMMARY

Experienced Python Full Stack Developer skilled in Django, ReactJS, and MySQL, with a strong background in building and consuming RESTful APIs. Proficient in creating dynamic user interfaces and managing relational databases, delivering high-quality, scalable web applications. Committed to problem-solving and optimizing code for performance, with a track record of successful project collaboration and agile development.

EXPERIENCE

Jr.Python Developer (Intern)

Inmakes Infotech Pvt

05/2024 - 08/2024 Kochi

Developed and maintained several web applications using Django, ensuring high performance and responsiveness.

Built and integrated RESTful APIs to facilitate seamless communication between front-end and back-end systems.

Created dynamic and responsive user interfaces with ReactJS, enhancing user experience.

Managed and optimized MySQL databases, including schema design, queries, and indexing.

Collaborated effectively with cross-functional teams, adhering to Agile practices to deliver projects on time.

Troubleshooted and debugged complex issues, improving system reliability and performance.

- To leverage my full-stack development skills in Python, Django, ReactJS, and MySQL to build innovative and efficient web applications that solve real-world problems.
